

SENTINEL®

PVC MOLDED UNIVERSAL CORNER

SENTINEL®
PVC MOLDED
UNIVERSAL CORNER
PRODUCT # P503

PRODUCT DATA SHEET

DESCRIPTION & FEATURES

SENTINEL PVC Universal Corners are injection molded, unreinforced flashings that are used to flash a variety of irregular details or where standard corners may have been installed. SENTINEL PVC Universal Corners are white in color.

STORAGE

All materials must be stored in a dry clean location and cover as necessary to protect from environmental damage such as extreme cold, heat or moisture. Monitor varying environmental conditions during storage, handling and application.

APPLICATION

SENTINEL PVC Universal Corners are installed by heat welding. Heat weld each seam to the roof membrane using a hot air welder. Refer to SOPREMA's specifications and installation instructions for additional application guidelines.
