SENTINEL®

SKIRTED DRIP EDGE

ROOFING

SENTINEL Skirted Drip Edge is designed with a factory applied membrane and pre-punched fastening holes to provide both time and labor savings. SENTINEL Skirted Drip Edge has an interlocking, concealed splice plate designed to prevent splice plate migration and is available in 12 foot lengths for fewer seams to simplify the installation process. SENTINEL Skirted Drip Edge is available in a variety of face heights with or without cleat.

- No need for stripping-in or heat welding at leading edge of roof that are typical with other systems
- Florida Building Code Approved
- ANSI/SPRI ES-1 tested to comply with the International Building Code
- Heat weldable SENTINEL PVC
- Decreased labor costs due to ease of installation
