

PRODUCT DATA SHEET

DESCRIPTION & FEATURES

SENTINEL VCM is a 24 gauge (0.6 mm) galvanized metal sheet with a 20 mil SENTINEL PVC membrane laminated to one side.

STORAGE

All materials must be stored in a clean, dry location and cover as necessary to protect from environmental damage such as extreme cold, heat or moisture. Monitor varying environmental conditions during storage, handling and application.

APPLICATION

SENTINEL VCM can be used to fabricate metal flashings, pitch-pans and edge details. It allows the user to create effective methods in detailing PVC-to-metal transitions. The vinyl coated metal can be used in both mechanically fastened and adhered roofing systems. Refer to SOPREMA's specifications and installation instructions for additional application guidelines.
