

VEGETATED

# SOPRANATURE VERSIJACK®

## PAVER & DECK SUPPORT

VersiJack® is a new generation pedestal engineered to provide a versatile and sustainable solution to support raised pavers and timber decking. It provides a cavity to conceal services, improves heat and sound insulation, and facilitates rapid surface drainage while allowing waterproofing and services to remain accessible. It also eliminates efflorescence and algae growth and reduces paver installation cost.

VersiJack® is a height and slope adjustable pedestal for paver and decking support engineered to reduce material, construction and lifecycle costs. It caters to a wide range of height requirements, from 1.5 in - 40 in (37 mm - 1016 mm), using only three main components (Top, Extender and Base). Accessories include top and bottom slope-correctors, spacer tabs, height extenders and joist holders.

### BENEFITS

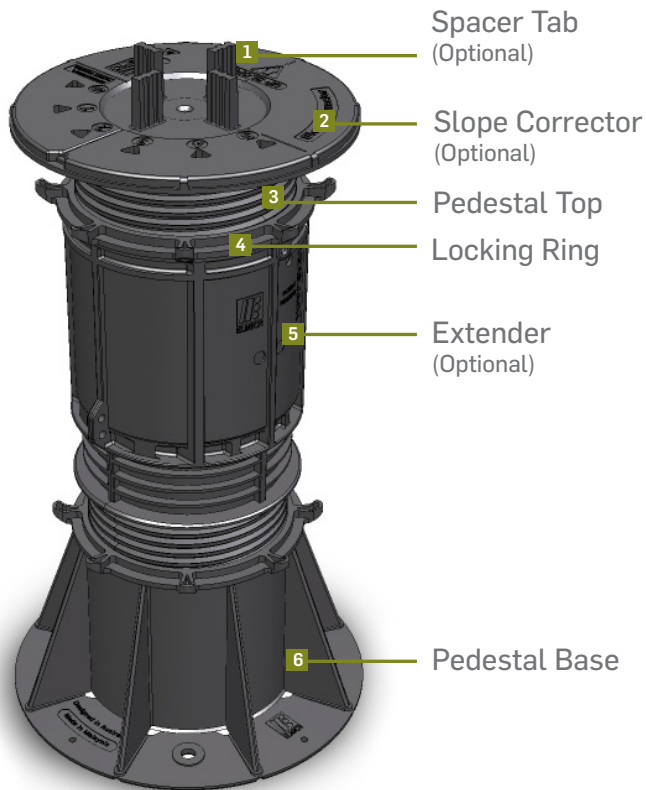

- Easy to install and lightweight
- Progressive height increments
- Top and/or bottom slope correction
- Supports Green Building certification
- Made from recycled plastics
- Easily removed and reused

# VERSIJACK PEDESTAL

- 1 SPACER TAB (W962, W986)**  
Spacer tabs with thickness from 0.1 in to 0.4 in (2mm to 10mm) cater for different gap sizes between pavers.
- 2 SLOPE ADJUSTER TOP (W963)**  
Provide for slope compensation up to 5%, keeping pavers level and upright.
- 3 PEDESTAL TOP (Included with W940, 941, 949, 954, 955)**
- 4 LOCKING RING (Included with W940, 941, 949, 954, 955)**  
Locking rings ensure pedestals are secured at desired heights and are easily removed when not required.
- 5 EXTENDER (W956) - Shown as "item 10" in graphic below**  
Allows pedestals to reach a desired height adjustment with minimal effort.
- 6 PEDESTAL BASE (Included with W940, 941, 949, 954, 955)**
