ELASTOPHENE STICK FR GR

An SBS-modified bitumen cap ply for use in approved multi-ply membrane and flashing assemblies, composed of a proprietary formulation of elastomeric styrene-butadiene-styrene (SBS) polymer modified bitumen and reinforced with a tough, high quality random glass fiber mat.

SOPRA-TITE Modified 300 Fascia is manufactured in 12 foot lengths with pre-punched fastening holes in the galvanized water dam to ensure correct fastener placement and spacing. It has prefabricated miters and accessories to ensure a proper fit and prevent the need for any field fabrication. SOPRA-TITE Modified 300 Fascia features dual attachment points on both the face and roof deck for added flexibility when accommodating roof irregularities. It is available as an easy snap-on version or a crimp-on version. The SOPRA-TITE Modified 300 Fascia offers a finish with no exposed fasteners, ideal for a project focused on aesthetics.

- ANSI/SPRI/ES-1 tested to comply with the International Building Code
- Decreased labor costs due to easy installation
- Available in a wide range of standard colors and finishes
- Florida Building Code Approved
- Factory Mutual approved for wind uplift protection
