SOPRA-TITE®

SENTINEL DRIP EDGE

ROOFING

SOPRA-TITE SENTINEL Drip Edge combines custom engineering and superior performance with an attractive appearance. The patented design of the extruded aluminum anchor bar securely terminates the membrane, providing superior protection.

- No need for stripping-in or heat welding that are typical with other systems
- Factory Mutual approved for wind uplift protection
- Extremely durable
- Watertight integrity is not compromised by improper flashing procedures, failed adhesives, or lap sealants
- ANSI/SPRI/ES-1 tested to comply with the International Building Code
- Decreased labor costs due to easy installation
- Non-stripin drip edge available in a variety of colors

RELATED PRODUCTS

SENTINEL COPPER ART P150

SENTINEL Copper Art P150 is a high performance, polyester reinforced, thermoplastic polyvinyl chloride (PVC) roof membrane, specially designed to provide unmatched flexibility and long-term performance. SENTINEL Copper Art P150 utilizes a specialized process that allows copper metal powder to incorporate into the PVC blend, producing a non-pigmented copper/pvc membrane.
