

COLPHENE BSW V

FASTENER

SOIL RETENTION SYSTEM

SOPRADRAIN (drainage) (i)

STRUCTURAL CONCRETE WALL

COLPHENE BSW H
CENTERED OVER LAP (reinforcement) (ii)

COLPHENE BSW V

8" MIN (200mm)

6" MIN (150mm)

(i): Always install Sopradrain filter fabric towards soil retention system. Primer is recommended over drainage board for application below 50°F.

(ii): Colphene BSW V reinforcement installed over primed surface and all edges sealed is an acceptable alternative to Colphene BSW H reinforcement.
